

Jake Welch (he/him)

Designer, creative technologist, and generative artist

Freelance Design

Creative technologist
Fall 2022 - present

Independently implements various freelance projects through advanced research and development for the creation of visual and motion graphics, web designs, music videos, installations and exhibitions using programming, generative, and traditional design tools and methods.

7D8, 2025 FIFA Club World Cup

Asset Production Assistant
April 2025 - present

Assisting in the production of digital marketing assets for the 2025 FIFA Club World Cup.

UMOCA, Milad Mozari, *Language of Movement*

Exhibition Designer and Fabricator
April 2024 - July 2024 | Salt Lake City, UT

Supported the design and build of the Utah Museum of Contemporary Art exhibit "Language of Movement" by creating generative motion graphics for projection mapping, as well coding software and fabricating hardware components for an interactive photo light table element.

Kevin Hartley, *Declatel Album Release Show*

Concert Visual Specialist
February 2024 - June 2024 | Salt Lake City, UT

Designed and developed a full set of custom real time audio-reactive visuals and built a custom VJing framework to interface visuals with live audio, DMX lighting, and MIDI controls. The visuals were performed during production filming and throughout the live performance event at the historic Salt Lake City Masonic Temple.

Verge Center For the Arts, Adam Miller, *I Want To Be A Person*

Code Assistant
April 2024 | Sacramento, CA (Remote)

Parsed through computer vision and robotics scripts written to control an animatronic inflatable puppet art installation and adapted the script to be modified to support additional units. Rewired servo motors and microcontrollers, and documented the changes to be used for future installations.

University of Utah, College of Architecture and Planning

Research Assistant
September 2023 - May 2024 | Salt lake City, UT

Supported faculty in instructing and problem solving with students in design thinking, design research, and prototyping courses.

8th Digital Humanities Utah Conference

Brand Designer
July 2023 - February 2024 | Salt Lake City, UT

Designed a flexible brand identity using custom tools for the official website and social media as well as on conference materials for the 8th Digital Humanities Utah Conference (DHU8), attended by top academics from Utah's 9 major universities.

B.S. in Multi-Disciplinary Design
University of Utah, December 2023

Skills

Adobe Suite, Figma, Microsoft Office, Google Workspace, Blender, TouchDesigner

Processing, p5.js, JavaScript, HTML/CSS, Vue.js, Python, computer vision, Arduino

Problem solver, thorough, detail oriented, self-driven, collaborative, supportive, fast learner, punctual, clear communicator, optimistic

About

Technically driven and creative minded designer with 3+ years of experience of researching, developing, designing, and building projects across disciplines from the web, screens, and print, to events, art exhibitions, and installations. Highly skilled in the design thinking process and in using programming and generative tools to unlock their highest potential.

When I'm not programming or coming up with a new project, you might find me in a museum, riding my bike, reading a book, or snuggling up with my cat Pepper.
